The Project Scoop

Travel Tag Mini Album Featuring:

magnetic **Twist Trimmer** | scalloped **Magnetic** 18"cutting mat & ruler | TRAVEL light

We R Memory Keepers Supplies List:

- Travel Light Scrapbook Pad
- Travel Light 4 x 6 Pad
- Travel Light Travel Tags
- Sew Easy Baker's Twine
- Travel Light Layered Chipboard Words
- Travel Light Layered Chipboard Tags
- Travel Light Embossed Stickers Sheet
- Road Trip Tag
- Greetings From Tag
- Travel Light Fabric Brads
- Magnetic Cutting Mat
- Art Knife
- Twist Trimmer
- Heart Attack
- Corner Chomper
- Crop-A-Dile
- 3 - 12x12 Chipboard Pieces

1 Start by creating the 6 (5" x 7") chipboard tags using the template provided. Score the chipboard with the Straight blade of the Twist Trimmer to get a clean, straight cut (it will not cut all the way through the chipboard). Use the Art Knife to finish the cut.

2 Using paper from the Travel Light Scrapbook Pad cover your pages then use the Heart Attack distress to the edges to create a worn look.

3 Punch a center hole using the Crop-A-Dile in each page at the top of each tag.
TIP: Attach an eyelet to each hole for extra strength and style!

4 For the cover, take one sheet from the 4x6 Pad, round the left 2 corners with the Corner Chomper and set on the right side of the tag and add another layer.

5 Embellish! Wrap Sew Easy Baker's Twine around the page and tie in a bow with a tag from the Travel tag set. Using U-Cut foam layer Road Trip tag (or another tag) onto the page. Finish off with an Embossed sticker tucked under the twine and add sentiment.*

"Rome" in this picture is made using the chipboard alphabet letters found in the Travel Light Scrapbook Pad. It also has a Fabric Brad in the middle of the "O" that was set with the Brad Setter & Piercing Tool and Piercing Mat.

Special thanks to our guest Designer, Jenny Chesnick

Travel Tag Mini Album Continued...

6 For the inside pictures pages, round the corners of a 4x6 photo and tuck under the Sew Easy Baker's Twine. Then add U-Cut foam to Layer chipboard words and apply on top of the Sew Easy Baker's Twine.

Repeat steps 6 and 7 for remaining picture pages.

7 For the remaining journal pages, repeat the cover steps: Layer 4x6 sheet with corners rounded, loop the Sew Easy Baker's Twine around the page and tie attached to a tag. Add a journaling spot using an embossed tag or a piece of paper from the 4x6 pad. Finish off with an embossed sticker or layered chipboard sticker.

Tag Template: Print and cut out with Precision Tip Scissors.
(Please DO NOT scale this page when printing, the tag must measure 7" x 5")
